Recent University of Texas graduate looking to change career tracks and jump into web development. Highly motivated self-learner always on the lookout for the most efficient solution to a problem. Not content with doing the bare minimum, all my projects go above and beyond expectations.

TECHNICAL PROFICIENCIES

HTML5, CSS3, Bootstrap, Javascript (ES6), Jquery, AJAX, Firebase, SQL (basic), GIT, Github, Node.js

EDUCATION

The Coding Bootcamp at UT Austin   *May - November 2018*
Part time full stack web development course

The University of Texas at Austin   *December 2017*
Bachelor of Arts in Latin Language with minor in Chemistry

RECENT PROJECTS

Online Rock Paper Scissors *Javascript | Firebase*   **Github** | **Deployed**
Play Rock Paper Scissors with anyone else connected to the site!

- Uses the Firebase real-time database to manage a queue system so only two players compete at a time
- Players are remembered with each visit and their wins/losses tracked
  - A unique key generated by firebase is stored in the browser's local storage

Nintendo Trivia Game *Javascript*   **Github** | **Deployed**
Can you answer 10 Nintendo trivia questions?

- Includes an efficient shuffling algorithm to randomize question and answer order
- Each question displays a countdown timer after which the next question is automatically loaded

WORK EXPERIENCE

Educational Testing Service (Contract)   *April 2018 - June 2018*
Resolutions Specialist   *Austin, Texas*

- Investigated sources of error in answer document reporting
- Given special access to client data and more responsibility after being recognized as a high performer

The Pen is Mightier Content Creators   *August 2017 - October 2017*
Junior Technical Writer   *Austin, Texas*

- Used SEO principles to write blog-post-style content to boost client search rankings
- Consistently produced error-free short-form posts at a rate of 4 per hour
